Council Offices,  
STURMINSTER NEWTON,  
Dorset.

1st June, 1949.

To the Chairman and Members,  
Sherborne Rural District Council.

Madam and Gentlemen,

I have the honour to submit my Annual Report for the year 1948.

The report is prepared and will be circulated in accordance with the requirements of Article 17(5) of the Sanitary Officers (Outside London) Regulations 1935.

The year under review can be considered to have been satisfactory from a public health point of view. There was no serious incidence of infectious disease, steady progress was made with regard to your new housing programme, and progress was made with the necessary preliminary work with regard to the provision of an improved water supply to the whole district and local sewerage schemes in the principal parishes.

I am indebted to Mr. Shepherd, your Sanitary Inspector, for his co-operation and help during the year, and for his assistance in preparing this report, particularly in respect to the sanitary statistics for which he is responsible. I am also indebted to my clerk, Miss L. Davidge, for her efficient services during the year.

I would also like to thank you, Madam and Gentlemen, for your courtesy and consideration throughout the year.

I have the honour to be,

Your obedient servant,

*K. J. P. P. P.*

Medical Officer of Health.

B. Personal Health Services in the district.

The National Health Service Act came into operation in July when the provision of hospital and specialist medical services became the responsibility of the Ministry of Health and the private medical practitioner service became the responsibility of the Local Executive Councils.

The County Council as local health authority under the Act became responsible for ambulance arrangements in the district, and for home nursing facilities. The domiciliary midwifery, child welfare and the school medical services remained the responsibility of the Dorset County Council as local health authority.

The laboratory services and the tuberculosis and venereal disease services previously provided by the Dorset County Council became the responsibility of the Ministry of Health through their hospital service.

The change over of functions and responsibilities in so far as the district is concerned appears to have taken place smoothly and without dislocation.

No complaints have been made to me suggesting that patients have not, under the Act, received any necessary medical treatment available to them before the Act became operative, and my general impression is that the Act has proved beneficial to the community.

## C. Environmental Health Services.

Sanitary Circumstances of the district -

### 1. SANITARY STAFF.

H. Shepherd, M.R.S.I., M.S.I.A. Chief Sanitary Inspector, Building Surveyor & Water Engineer (Engaged part time on Sanitary Duties).

R.L. Symes, M.R.S.I., M.S.I.A. Additional Sanitary Inspector (Engaged full time on Sanitary Duties) Commenced duties on 16.2.48.

Clerical Staff -

One clerk and one junior clerk.

### 2. WATER SUPPLY.

During the year under review serious shortages of water were again experienced which were in part due to the diminution in the yield of the springs and in part due to serious leakages on some of the principal mains caused by Oxford clay action.

So serious were the shortages when consumption was at its peak level that supplies condemned as unfit for consumption had to be used. Fortunately the summer was not excessively hot and sunny for a prolonged period, or the position would have been extremely serious. It is essential that the Southern Parishes supply should be augmented before the coming summer and to this end the Council has formulated its proposal to augment the supply from the Sherborne U.D.C. supply to Haydon Park Camp. In my report for last year I recorded that the Council had agreed to taking a supply from the Wincanton R.D.C. to augment the Osborne supply. I have now to record that the Wincanton R.D.C. have withdrawn their offer to provide such a supply and the Council are considering other means to provide an additional supply to that parish.

### New Connections.

The following new connections to the Council's mains were made during the year :-

- (i) domestic use.....54
- (ii) agricultural purposes..... 7

The present water supplies in the rural district are many and varied, some under the control of the Council, some from private sources. The quality of the supplies are equally variable and on the whole are not entirely satisfactory. Considerable amount of maintenance and supervision of the various supplies under the control of the Council is called for. When the comprehensive scheme, based on the new Thornford borehole, can come into operation not only will a sufficient supply of water be available for all purposes in the district, but the supply to the district will come from one source of pure water the quality of which will be able to be supervised with much more ease and efficiency than is called for by the many sources at present in use.

### 3. DRAINAGE & SEWERAGE.

New works carried out during the year -

Alweston. Part of the permanent sewerage scheme for Alweston has been completed.

Thornford. Part of the permanent sewerage scheme for Thornford has been completed, in connection with the drainage of the new housing estate. Ditches containing sewage were cleaned out during the year.

Yetminster. Sewage Works have been constructed at Eastlands, Yetminster for 16 new Council houses built there.

Bishops Caundle. New Sewage Works have been constructed for the old and new Council houses provided there. Ditches containing sewage were cleaned out during the year.
